

**Visual Inspection Agreement Important Limitations, Departures and Disclaimers**

**This Contract includes the verbiage on pages one and two of the Property Inspection Report 7A-1 .**

(Client) hereby request **Advanced Inspections Inc.** herein after known as the Inspector, to conduct a limited visual inspection of this property for the purpose of informing me of major deficiencies in the condition of the inspected property. I understand the written report is the property of the Inspector the Client and Clients Representative. The report may be transferred to the Seller or Seller's Representative during the option period for use in communicating or clarifying deficiencies that the Inspector has noted. It shall not be used by or transferred to any other person or company without both the Inspector's and the Clients written consent. This report is not to be used by any home warranty company. warrant that I will read the following agreement carefully. I understand that I am bound by all the terms of this contract. I further warrant that I will read the entire inspection report, when I receive it, and promptly call and consult with the Inspector any questions I may have.

**Scope of Inspections:**

The inspection will be performed in accordance with the Texas Real Estate Commissions Standards of Practice regulating Home Inspectors Go to [www.trec.state.tx.us](http://www.trec.state.tx.us) for these guidelines. The report used by the Inspector is the Texas Real Estate Commissions mandated inspection report. The inspector will observe, render an opinion and report which of the parts, components, and systems present in the property have or have not been inspected. All mechanical and electrical equipment, systems and appliances are operated in normal modes and operating range at the time of the inspection. The Inspector's report will specifically indicate if the inspected parts, components or system are deficient.

**Structural and Mechanical Inspection:** The Inspector will report on accessible and visible deficiencies related to the Property's Structural Systems, Electrical Systems, Heating, Ventilation and Air Conditioning Systems, Plumbing Systems and Appliances. (Optional Systems can be requested at Additional Fees.) Conditions beyond the scope of this inspection will be identified in this contract or in the body of your inspection report. The Inspector is not a structural engineer. This inspection is not an engineering report, and should not be considered one. If any cause of concern is noted on this report, or if you want further evaluation, you should consider consulting with an engineer.

**Visual Inspection Agreement** the building, its components and equipment are to be ready and accessible for inspection on the date and time agreed upon. All utilities and pilot lights must be on and all equipment operational so the total inspection may be completed on the agreed date and time. If reinspections are needed to complete the inspection process, there will be additional fees accessed at a rate not less than half the price of the original inspection fee. The Inspector is not obligated to change light bulbs, light pilots, move furniture, obstructions or floor coverings, or remove panels to inspect any part of the building or its equipment. The pool/spa must be full, clean and operational. The Central Cooling System(s) will not be turned on when temperatures are below 60 degrees. The Central Heating System(s) shall not be turned on when temperatures are above 90 degrees. Per Texas Real Estate Commission Inspectors Standards of Practice "Full evaluation of the integrity of the heat exchanger requires dismantling of the furnace and is beyond the scope of a visual inspection." The written report will not substitute for client's personal presence during the inspection. The Client is further urged to make his/her own physical inspection of the dwelling. To personally operate all electrical, mechanical, plumbing fixtures, equipment and systems. Become familiar with their proper use and maintenance requirements, and to obtain all operating manuals and warranties with respect there-to. Make inquiries as to any previous maintenance problems, repairs and/or replacements of the structural components, equipment and systems of the dwelling, including the roof, foundation, walls and partitions. The inspection report is not a repair list and is made for the sole purpose of assisting the purchaser to determine feasibility of purchasing and in no way meant to influence his/her decision to purchase. The scope of this inspection is limited strictly to those items requested and checked as inspected in the report. The inspection is intended to be a practical, nondestructive examination of the function of the building, its components and equipment. The examination is limited to visual, audible and operational techniques. **THIS INSPECTION IS NOT intended to be technically exhaustive nor is it considered to be A GUARANTEE, HOME WARRANTY OR INSURANCE POLICY OF THE FUTURE LIFE OR FAILURE OF THE ITEMS INSPECTED, EXPRESSED OR IMPLIED.** The inspector shall not be held responsible or liable for any repairs or replacements with regard to the property, systems, components, or its contents therein. The Inspector is neither a guarantor nor insurer. The Inspector will have no liability for latent defects or items intentionally covered, concealed or hidden that cannot be observed by a normal visual inspection, or cannot be determined by normal equipment operation at the time of this inspection.

Therefore, the Inspectors liability is specifically limited to those situations where it can be conclusively shown that the mechanical device or structural component inspected was inoperable, in immediate major need of repair or not performing the function for which it was intended at the time of inspection.

**THE INSPECTOR IS A HOME INSPECTION GENERALIST AND IS NOT ACTING OR REPRESENTING HIMSELF AS A LICENSED STRUCTURAL ENGINEER, MECHANICAL ENGINEER OR EXPERT IN ANY CRAFT OR TRADE.** The Client is urged, prior to closing, to have an expert in the appropriate field examine any and all items noted, D= Deficient, in the inspection report so to determine the full extent of the condition and effect on the value of the property. It is recommended that all repairs be completed by, or under the direction of a qualified specialist, certified, licensed and bonded in the field of the reported item.

**Outside The Scope Of The Inspection:** The Inspector does not take responsibility for reporting noncompliance with any homeowner associations, building, electrical, mechanical or plumbing codes established by municipal ordinances on any existing structure. The inspection and report does not address the possible presence of hazardous gasses, toxic wastes, substances or danger from asbestos, radon gas, lead paints, bacteria's, molds, mildews or fungi, urea formaldehyde, pollution, soil contamination and other indoor and outdoor substances. The Client is urged to contact a competent specialist if information, identification, or testing of the above is desired.

The inspection does not include any destructive testing or dismantling. Any area(s) which are not exposed to view, is concealed, or is inaccessible because of soil, construction, walls, wallpaper, partitions, floors, carpet, ceilings, paintings, plants, furnishings and any other condition, item, system or component which by the nature of their location are concealed or otherwise difficult to inspect or which the Inspector cannot visually examine. Repairs or remodeling may hide evidence of damage or defects. The Client agrees to assume all risk for all conditions, which are concealed from view at the time of the inspection. We do not give estimates for the cost to repair.

**Whether Or Not They Are Concealed, The Following ARE OUTSIDE THE SCOPE OF THIS INSPECTION.**

- Items buried or normally covered by construction
- In or below slab water or sewer leaks
- Underground drainage around the home
- Future roof leaks, layers of roofing material, latent defects.
- Detached structures, decks, docks, fences, walls, sheds
- Latent defects, hidden conditions, flat concrete work
- Exterior / Interior painting, paneling and trim
- Floor and wall coverings, window treatments
- Cabinets, counter tops and back splashes
- Rodent infestation
- Landscape lighting, exterior fixtures on timers or sensors
- HVAC heat exchangers, humidifiers, electric air filters
- Self-cleaning mode on ovens, refrigerators & laundry equipment
- Water softeners or purifiers, solar heating systems
- Adequacy or efficiency of any system or component
- Pressure test of sewer, water or gas lines
- Pool or spa bodies and underground piping
- Checking for pool, spa, or sprinkler below finish grade water leaks
- Private water or private sewer systems
- Satellite dish, cable TV, antennas, phone, alarm systems
- Computer cabling, Smart Home, surround sound systems
- Exterior EIFS or synthetic plaster systems not inspected for moisture penetration, Client should consult a specialist
- Presence of termites or other wood-destroying insects is a separate report – not covered by or in this report
- The presence, absence, or risk of asbestos, lead-based paint, mold, mildew, or any other carcinogen, toxin, mycotoxin, pollutant, fungal presence or activity, or poison; environmental hazard, environmental pathogen. No intrusive, moisture, and/or Indoor Quality (IAQ) tests were performed as they were beyond the scope of this inspection.

**Foundation Information:** Most of the north Texas area soil is expansive type clay. Therefore, proper care of your home's foundation is very important in preserving the integrity of the structure. Clay soils have the ability to expand (when wet) or to contract (when dry) at alarming rates. This requires that an EVEN and rather CONSTANT level of moisture be maintained around the ENTIRE house. Defects in the foundation occur when the structure does not move as a unit. This could occur when one area around the foundation is continually wet, while other areas remain dry. Listed below are a few suggestions that may help in your foundation maintenance program.

- 1) Never allow the soil to dry to the point of cracking or pulling away from the foundation.
- 2) Maintain the grading & beds around the foundation so that it gently slopes AWAY from the structure.
- 3) If the house has guttering, be sure that all run-off is diverted well away (3 or more feet) from the foundation.
- 4) The area around the foundation should always be watered around the ENTIRE structure.
- 5) The best way to ensure adequate watering is to place soaker hoses around the entire perimeter or install a sprinkler system.
- 6) Do not let water stand next to the foundation.

**Future Inspections Or Reinspections** To the named property, performed by Aadvanced Inspections Inc. for the Client are also covered by the verbiage contained within the Visual Contract Agreement. The contract and the inspection reports are a unit, bound to each other, meaningless without both components.

**Fee Or Other Valuable Consideration Disclosure** Aadvanced Inspections Inc. may sometimes hire independent contractors such as Security, Termite, or Pool Inspection Companies to provide a portion of the inspection information. Aadvanced may also receive a fee from contractors or pay a fee to contractors for services rendered. Client agrees that they have been informed of this arrangement between the inspector and a third party and I agree to the arrangement.

**DISPUTES:** Client understands and agrees that any claim concerning the interpretation of this agreement or for failure to accurately report any visually discernible conditions at the Subject Property, as limited herein above, shall be made in writing and reported to the Inspector within (10) ten business days of discovery. Client further agrees that, with the exception of emergency conditions, Client or Client's agent, employees or independent contractors will make no alterations, modifications or repairs to the claim discrepancy prior to a reinspection by the Inspector. Client understands and agrees that any failure to notify the Inspector as stated above shall constitute a waiver of any and all claims for said failure to accurately report the condition in question. **ARBITRATION:** Any dispute concerning the interpretation of this agreement or arising from this inspection report, except one for inspection fee payment, shall be resolved informally between the parties or by arbitration conducted in accordance with the rules of a recognized association. Except that the parties shall select an arbitrator whom is familiar with the home inspection industry. The arbitrator shall conduct summary judgment motions and enforce full discovery rights as a court would as provided in civil proceeding by legal code.

**ATTORNEY'S FEES:** If a lawsuit is filed by the Client against the Inspector and the Inspector successfully defends the claim of the Client. The Client agrees to pay the Inspector reasonable attorney's fees, court cost and any other cost incurred in the defending against such claims. **LIMITATION ON LIABILITY:** Inspector's liability for mistakes or omissions in this inspection report are limited to a refund of the fee paid for the inspection report. The liability of the inspector's principals, agents, and employees is also limited to the fee paid. This limitation applies to anyone who is damaged or has to pay expenses of any kind because of mistakes or omissions in this inspection report. This liability limitation is binding on Client and Client's spouse, heirs, principals, assigns and anyone else who may otherwise claim through Client.

Client assumes the risk of all losses greater than the inspection fee paid for the inspection. Client agrees to immediately accept a refund of the fee as full settlement of any and all claims that may ever arise from this inspection.

**You Represent To Us That You Agree To Each Provision Of This Report By Relying On It In Any Way, Whether Or Nor You Sign It.**

I hereby acknowledge that I have read, understood and accept the Visual Inspection Agreement and authorize the inspection of the Property.
